

A survey carried out by independent audit firms with each of CitrusBR's members and subsequently consolidated confidentially by an external audit found that the global inventories of Brazilian orange juice, converted into FCOJ Equivalent, held by CitrusBR members on December 31st, 2024, were 351,483 tons, a decrease of 24.2% compared to the 463,940 tons from the previous season. This figure is the lowest in the historical series. The disclosure of final processing data and industrial yield on fruit will be made by CitrusBR later in 2025.

Historical data for existing brazilian orange juice inventories on hands of CitrusBR Members Worldwide - December 31st
